Archéo-Nil est une revue internationale et pluridisciplinaire à comité de lecture («peer review») dans le respect des normes internationales de journaux scientifiques. Tout article soumis pour publication est examiné par au moins deux spécialistes de renommée internationale reconnus dans le domaine de la préhistoire ou de l'archéologie égyptienne. L'analyse est effectuée sur une base anonyme (le nom de l'auteur ne sera pas communiqué aux examinateurs ; les noms des examinateurs ne seront pas communiqués à l'auteur).

Archéo-Nil uses a double-blind peer-review process. When you submit a paper for peer review, the journal's editors will choose technical reviewers, who will evaluate the extent to which your paper meets the criteria for publication and provide constructive feedback on how you could improve it.

Bibliography of the Prehistory and the Early Dynastic Period of Egypt and Northern Sudan.

2019 Addition

Stan Hendrickx, Hasselt University – PXL, Hasselt, Belgium

Wouter Claes, Royal Museums of Art and History, Brussels, Belgium

The present bibliographical list is a continuation of HENDRICKX, S., *Analytical Bibliography of the Prehistory and the Early Dynastic Period of Egypt and Northern Sudan*. Egyptian Prehistory Monographs 1, Leuven, 1995. Previous additions have been published yearly in *Archéo-Nil* since 1996. The numbering is continued from the original volume and the previous additions. Encyclopaedic works and small notes relating to recent archaeological activities have been treated as separate entries, which of course enlarges the corpus considerably, but proved to be useful with regard to the site register.

Additions to this bibliography will continue to be published yearly in *Archéo-Nil*. Therefore, it would be most useful if scholars would send their publication lists, pdf off-prints and additions or corrections to the authors:
